

SAW Grant Match Calculation

To ensure the grant match is calculated correctly, apply the match to the total project cost, not the grant amount.

$$\text{\$1,111,111} \times 90\% = \text{\$1,000,000}$$

$$\text{\$1,333,333} \times 75\% = \text{\$1,000,000}$$

$$\text{Total Grant Amount} = \text{\$2,000,000}$$

$$\text{Total Project Cost} = \text{\$2,444,444}$$

$$\text{\$2,444,444} - \text{\$2,000,000} = \text{\$444,444 local match amount}$$
